

## **SYSTEM CLASS**

**Description Of Map:** This map presents routes and roads based on two features. System defines the importance of the road to the transportation network (primary, secondary, local, recreation, etc.). The class defines the maintenance responsibilities of the road (state, town, toll, US forest service, etc.).

**Areas That The Map Covers:** Statewide Coverage.

**What The Map Is Used For Or How It Can Be Used:** The map is essentially used to find system classifications for various local, state, US, and National Highway routes and roads. It can also be used to define funding sources.

**How Often The Map Gets Updated/Print Update:** When conditions or situations warrant change.

**Layers Used:** NHBounds and Roads

**File Path:** i:/mapping/projects/statewide maps/sys and fc maps.apr

**Base Scale:** 1:24000

**Map Scale:** Varies by Map

**Map Code:** S6
